We have a strong presence in most parts of the Thane region, and we have also delivered in key areas of Mumbai, such as Powai, Goregaon, and Fort.

We have expanded our services to include individual clients, corporations, and educational institutions.

Our core business stems from our values, which include providing the most appropriate solution based on our clients' needs and thus living up to their expectations. We thrive on our customers' product satisfaction, and we hope to deliver and maintain the growing quality of service that we promise. Our expertise lies in providing the highest quality product at the most reasonable price and with the guarantee that any customer expects. Our low prices are due to the fact that we have vertically integrated our business by also dealing in the supply of raw materials such as foam used in furnishing products, which has reduced costs and thus benefited our customers.

We have repeatedly served our loyal customers and have always been able to impress them with the service we provide.

PRODUCT DESCRIPTION:

MODEL FINGUARD HS 90 AND FINGUARD HS180

PREVENTS INJURIES: Covers the door hinge and keeps your hand and fingers from becoming trapped in the hinges as the door closes, gently pushing little fingers out. Amputations and broken bones are avoided.

BENEFIT: Covers the entire gap on the hinge side where fingers are frequently caught.

MODEL FINGUARD LS (LOCK SIDE)

PREVENTS INJURIES: The automated system creates a gap between the door and the frame on the lock side of the door, preventing fingers from becoming trapped in the lock.

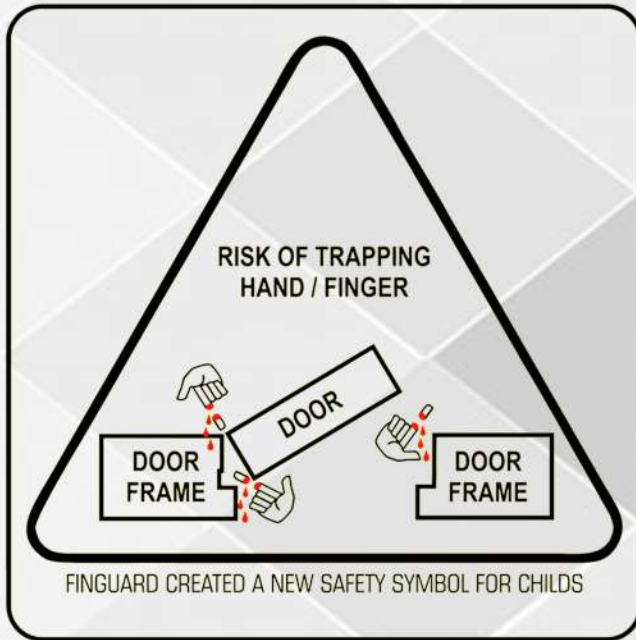

BENEFIT: It has an automatic system that allows it to take its position once a door is opened (opened or closed). As a result, even if the person forgets, FINGUARD LS will continue to function.
